SUMMER 2021

Have you ever wondered if a call you received about your Adams State Bank debit card was a scam?

Adams State Bank debit cards are protected through an important partner who provides industry leading technology, tools and the expertise to manage fraud. Experienced fraud analysts work around the clock, watching for any suspicious card activity and will contact you immediately if they detect potential fraud on your card.

We recommend saving the following 2 phone numbers in your phone. The first number can be used if you discover a lost or stolen debit card that needs to be reported after hours. The second number is the number that would contact you directly should our fraud department discover what they believe to be fraudulent activity.

If you receive a phone call from either of these number, please answer it!
